MEMORANDUM FOR THE RECORD

SUBJECT: Conversation of 12 March 1980 (U)

25X1

1. Introduced [] He showed some of the background materials for his operation. He was very well received and thanked very cordially. (C/NF)

2. I presented my Third Anniversary Report. Stuck pretty well to the outline. (C/NF)

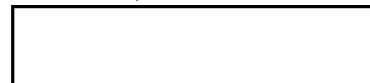

3. On the subject of security, the comment was made that we, Defense, and State all disseminate things too widely, e.g., Defense had distributed 109 copies of one Top Secret report. (S/NF)

4. We discussed the PDB. Opinion was expressed that without the INR summaries that Dr. Brzezinski had been sending in more recently, there would be a dearth of current information. There was a desire for news bulletins or brief news stories of what is going on around the world. The annexes were praised as being worthwhile. Desire was expressed for a Kiplinger-type bullet statement such as, "There is a possible coup evolving in _____." If more was wanted, a tick would be made and it could be provided the next day. (S/NF)

5. Ran out of time there. (U)
